
Health and Housing - They Go Hand in Hand

**Stacey Millett, Health Impact Project
July 11, 2018**

Social and Economic Factors Matter More than Behavior or Clinical Care

Where you live, learn, work and play matters

Health Impact Project Vision

Diminish the effect that social or economic factors have on people's health and the length or quality of their lives

Form Cross-Sector Collaborations

Focus on Equity

HEALTH **IMPACT**
PROJECT

Foster Health in Decision-Making

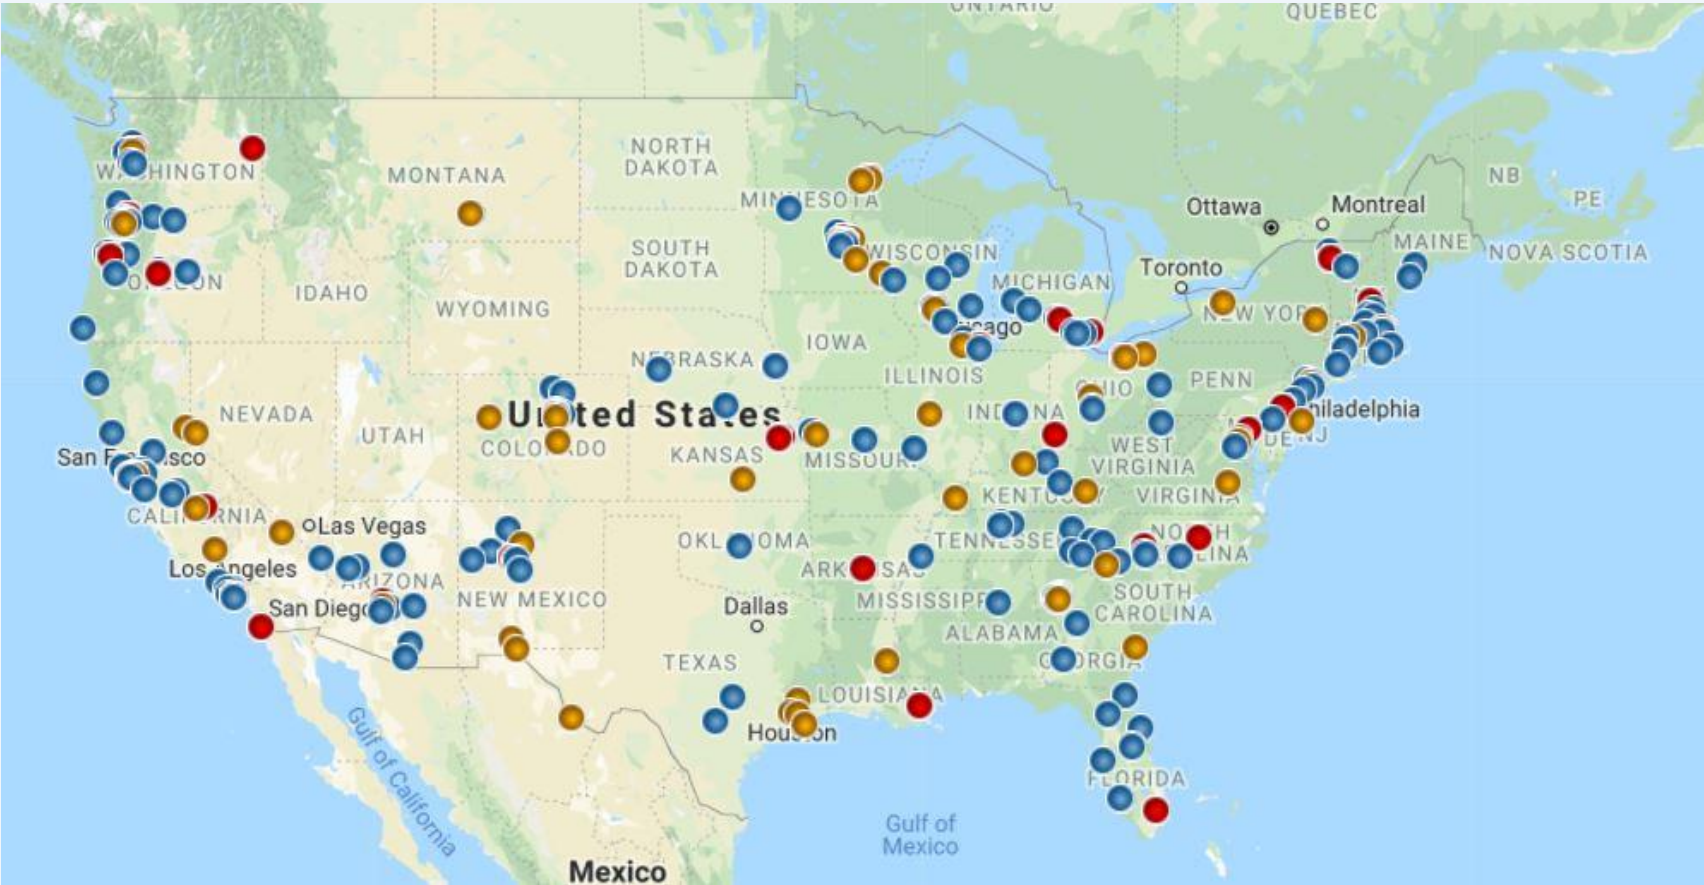

Health Impact Assessment is a Tool for Improved Decision-Making

“A structured process that uses scientific data, professional expertise, and stakeholder input to identify and evaluate public health consequences of proposals and suggests actions that could be taken to minimize adverse health impacts and optimize beneficial ones.”

Source: “Improving Health in the United States: The Role of Health Impact Assessments” by the National Research Council, September 2011

More than 400 HIAs and Counting Today

HIA Across a Range of Sectors

Links Between Housing and Health

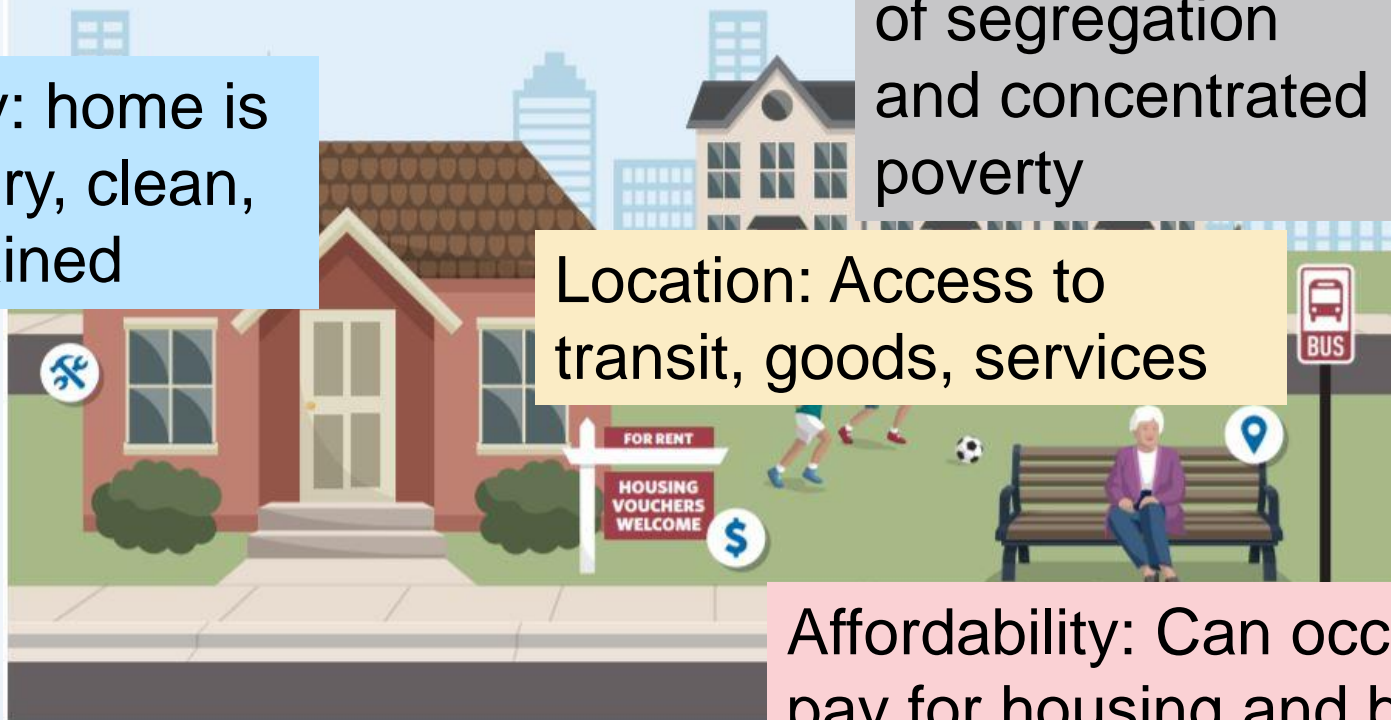

Links Between Housing and Health

Quality: home is safe, dry, clean, maintained

Community: Free of segregation and concentrated poverty

Location: Access to transit, goods, services

Affordability: Can occupant pay for housing and basic needs

Being Locked Out of Healthy Housing Hurts

Thank You
